

CET 1001

ETHICS CASE SPACE SHUTTLE-CHALLENGER GROUP WORK

A) You have watched the video in class and you read the handout: "implications and ramifications of engineering design of field joint for space shuttle: sts 51-l"

B) Your group is to state 3 to 5 actions, decisions, or events which occurred that you think should have been done differently (or not done at all). You can also state things that should have been done (that were not done).

NOTE: You must support each of your statements with passages from the ABET Code of Ethics.

CET 1001

Miller Park Roof Case (PART A)

Identify unethical conduct or statements (if any) from the following individuals or companies:

- **Victor Grotlich (Project Supervisor)**
- **Wayne Noel (Job Safety Supervisor)**
- **Mitsubishi Heavy Industries (Roof Contractor)**
- **Lampson International Limited (Crane Manufacturer)**

Support your answers with applicable sections of the Code of Ethics.

CET 1001

Miller Park Roof Case (PART B)

State ethical conduct or actions which could have been done by:

- **Victor Grotlich**
- **Wayne Noel**
- **Mitsubishi Heavy Industries**
- **Lampson International Limited**

Support your answers with applicable sections of the Code of Ethics.
