DOES NEUROSCIENCE HAVE NORMATIVE IMPLICATIONS?

Friday, April 15th, 2016

9:30 Kurt Gray, University of North Carolina
Mind Perception and Morality

10:45 COFFEE BREAK

11:00 Maria Brincker, University of Massachusetts
The Power of the Fact-Value Dichotomy as Seen through the Mirror Neuron Debate

11:30 Bongrae Seok, Alvernia University
Autistic Moral Agency and Integrative Neuroethics

12:00 Stephen Napier, Villanova University
Getting Our Moral Intuitions Right: Sympathetic Thinking and Moral Judgment

12:30 Ullica Segerstrale, Illinois Institute of Technology
Implications of Neuroscience and Sociobiology: Real and Perceived

1:00 LUNCH

2:00 James Giordano, Georgetown University
The Is and the Ought: On the Validity, Limits, Value—and Stewardship—of a Neuroscience of Human Ecology

3:15 COFFEE BREAK

3:30 Brett Karlan, Princeton University
Let a Thousand Methods Bloom: On the Neuroscience of Moral Judgment Winner: Graduate Student Travel Award

4:00 Matthew Childers, University of Iowa
Naturalized Virtue Ethics and the Neuroscience of Self-Control

4:30 Matt Jeffers, Georgia State University
Moral Theory is About Reasons, Not Motivations

5:00 Geoff Holtzman, Illinois Institute of Technology
Three Goals for a Third Tradition of Neuroethics

Saturday, April 16th, 2016

9:00 Thomas Noah, University of Pennsylvania
Can Neuroscience Help Select the Correct Metamorality?

9:30 Theresa Lopez, Hamilton College
Why Targeted Debunking Arguments in Ethics Must Be More Targeted

10:00 Tommaso Bruni, Western University and Regina Rini, New York University
Archimedes in the Lab

10:30 Isaac Wiegman, Texas State University
The Reactive Roots of Retribution: Normative Implications of Neurobiology of Punishment

11:00 COFFEE BREAK

11:15 Eddy Nahmias, Georgia State University
Did My Brain Make Me Do It?: Free Will and Neuroscience

12:30 LUNCH

1:30 Rory Svarc, King’s College, London
Does Pain Asymbolia Undermine Classical Moral Hedonistic Utilitarianism?

2:00 Chris Zarpentine, Wilkes University
Neuroscience, Moral Motivation, and the Structure of Moral Psychology

2:30 Matthew Ruble, Appalachian State University
Nervous Morals: What the Mistakes of Psychiatric Ethics Can Teach Us About Neuroethics

3:00 Garrett Merriam, University of Southern Indiana
Neuromachean Ethics

Alumni Lounge
Hermann Hall
Illinois Institute of Technology
3241 South Federal Street
Chicago, IL 60647

CENTER FOR THE STUDY OF ETHICS IN THE PROFESSIONS
the cogito foundation
